Note: The chart includes only prelicensure RN students. In both the chart and table the prelicensure BSN counts include Paramedic-RN students. The figures in the last column were calculated by dividing the total # of males enrolled in a given year by the total enrollment of all nursing students that year in PNE, ADN, prelicensure BSN, prelicensure MSN, and RN-BSN programs in that year. Those total enrollment figures are not reported in that format in this report. They are as follows: 2003 – 9,166; 2004 – 10,062; 2005 – 11,376; 2006 – 10,885; 2007 – 11,436.
